OVER 18" = LONG TUNNEL
UNDER 18" = SHORT TUNNEL

FROM SEAT BOLT TO
TAILLIGHT MOUNT

129" & 137" TRACK OWNERS PLEASE NOTE: 2017 to present Cat & Yamaha Vipers / Sidewinders

* If the measurement from the bolt to tail light is less than 17" only this model will fit: YC124 Series products.

** If the measurement from the bolt to tail light is 18 inches or longer these models will fit: YC124CM Series products, AC312 Series products and the YC700 Series products.

*** Some OEM rear bags will need to be removed to install Powder Keg products.

*** **ATTN: 129" & 137" OWNERS ONLY**

Yamaha/Arctic Cat have used three different seat lengths. Storage Box/Fuel Cell combinations will work with Seat #1 & #2.

Individual storage boxes or fuel cells alone will work with Seat #3.

#1 - SHORT OVERHANG

#2 - MEDIUM OVERHANG

#3 - LONG OVERHANG
