OVER 18" = LONG TUNNEL  
UNDER 18" = SHORT TUNNEL

FROM SEAT BOLT TO  
TAIL LIGHT MOUNT

**129" & 137" TRACK OWNERS PLEASE NOTE: 2017 to present Cat & Yamaha Vipers / Sidewinders**

\* If the shortest measurement from the seat bolt to front of tail light housing is less than 17" only this model will fit: YC124 Series products.

\*\* If the shortest measurement from the seat bolt to front of tail light housing is 18 inches or longer these models will fit: YC124CM Series products, AC312 Series products and the YC700 Series products.

\*\*\* Some OEM rear bags will need to be removed to install Powder Keg products.

\*\*\* **ATTN: 129" & 137" OWNERS ONLY**

Yamaha/Arctic Cat have used three different seat lengths. Storage Box/Fuel Cell combinations will work with Seat #1 & #2.

Individual storage boxes or fuel cells alone will work with Seat #3.
